## Word from the President of PAUSA

It is with great pleasure that I welcome all to the PAUSA Congress holding here in Hammamet, Tunisia.

This congress is coming up 4 years after the last one held in Cote d'Ivoire. This gap was occasioned by the COVID-19 Pandemic which devastated the whole Globe and affected both movement and economy of the whole world. I thank God that we all survived this great scourge. The meeting was postponed twice but I am happy that we are on course once more. I wish to appreciate the Tunisian Association of Urologist (ATU) under the leadership of Dr. Ahmed Zribi for putting together this Congress despite all odds.

The COVID-19 Pandemic brought to fore the communication technologies hitherto underutilized. These were employed maximally over the past few years with a lot of achievements. We were able to hold several virtual meetings, both academic and business. We organized several lectures in collaboration with other partners like IVUmed, ISfTeH, African national urological associations among others. We maintained our relationship and obligations with other urology associations like SIU, AUA, EAU and we were able to establish new ones like AAU.

We have established a new website which we are still trying to perfect so that it will be very interactive including creating avenues for dues payment and other activities.

More importantly, the secretariat will have a better control of the website at the end. We have also developed some disease management algorithm with sponsorship from partners who will be recognized at the appropriate time.

I must thank the members of the Executive, particularly the indefatigable Secretary, Dr. Moh Jalloh, who has worked very assiduously to anchor all these from the Secretariat. He has demonstrated great love and passion for our dear association, PAUSA.

This physical meeting will help consolidate all the achievements and forge the way forward.

I invite all of you to sit back and enjoy which the beautifully packaged program by the organizers.

Long live PAUSA. Long live ATU.

**Professor Alexander ME Nwofor**  
President of PAUSA

## Word from the President of ATU

Esteemed guests,  
Dear colleagues,  
Dear Friends,

This year we have the privilege to host the 15th Panafrican Urological Surgeon's Association (PAUSA) congress that will be held in the city of Hammamet (Tunisia) in October 20 - 21 - 22, 2022.

In conjunction with the 22nd Tunisian Urological Association (ATU) congress.

We are honored that this meeting is organized under the high patronage of Mr. the Minister of Health.

We appreciate and are grateful to PAUSA executives for giving us the opportunity to organize this congress for the second time in Tunisia.

We are delighted to finally return to an in-person meeting after two years when the COVID-19 pandemic has affected all our activities.

During this congress, delegates and speakers from Africa and also from Europe, Asia, and the USA will meet and discuss the advancement and research in urology.

There will be plenary, special, oral communication, poster, and video sessions.

Different local associations participate in this congress: Gynecology, radiology, oncology, radiation therapy, clinical sexology, general and family medicine.

I would like to thank international urological associations for their valuable contribution to this congress:

Arab Association of Urology, Association Française d'Urologie, American Urological

Association, European Association of Urology, Société Internationale d'Urologie.

This congress is also an opportunity for young urologists to participate in workshop, hands-on sessions (laparoscopy, endo urology, radiology, female urology and clinical sexology) and attend educational courses provided by experts from the European Association of Urology (ESU, ESUT) and the American Urological Association.

A Nurse Day session is joined to the scientific program.

We are honored and pleased to invite you.

This meeting is a great opportunity for all of us to develop privileged relationships and build fruitful collaborations.

We are delighted to live an memorable coincidence: the 30th Anniversary of PAUSA and ATU.

I wish you all a pleasant stay and WELCOME in TUNISIA.

Dr Ahmed Said Zribi  
President of ATU

## Past Presidents of PAUSA

**Prof Deon du Plessis**  
(South Africa)  
1995 - 1997

**Dr Alfpheus Mabose Segone**  
(South Africa)  
1999 - 2001

**Prof Chris Heyns**  
(South Africa)  
2005 - 2008
